[Elon Musk](#) wants time to prepare for a trial over his contentious withdrawal from an agreement to buy [Twitter](#) for \$44 billion, according to a filing in a Delaware chancery court by his attorneys on Friday.

Musk's team says the trial should wait until next year, after Twitter had requested expedited treatment and a hearing as early as this September.

Apple leaks have revealed that iPhone 14 Pro models will receive multiple upgrades and higher pricing. But now a new report claims standard iPhone will also receive a price bump, despite being virtually unchanged from predecessors.

Speaking to *The Sun*, Dan Ives, head of popular analyst group Wedbush, says supply chain prices are the driving force behind the increase.

Apple CEO Tim Cook says there's at least one question your iPhone can't answer: How do you build a life that provides both meaning and fulfillment?

Luckily, Cook himself has some advice on that front. At Gallaudet University's commencement ceremony in Washington D.C. last month,

The Tesla Model 3 Long Range topped the charts with a 74.2/100 "greenpower" rating. The Model 3 LR has a battery size of 83.0 kWh and a charging speed of 18.0 miles/minute.

Meanwhile, the [Lucid Air](#) ranked second in the ratings with 70.5/100 greenpower. It's impressive despite having the largest battery of 112 kWh among all the cars that made it to the list. The Air's range is 413 miles versus Tesla's 358 miles. However, the Air's charging speed is slower than the Model 3 LR at 451 miles versus Tesla's 358 miles.

As [Apple](#) seeks to bolster its subscription service to compete with Spotify, the company is adding exclusive performances from artists, who will perform at Apple's studios to cover classics and recreate their own hits.

On Friday, the company introduced Apple Music Sessions, featuring performances from singers including Carrie Underwood and Tenille Townes.
